

SERVICE INFORMATION LETTER

SERVICE INFORMATION LETTER NO. T-024

Page 1 of 2

DATE: May 2, 2007

1. SUBJECT: Engine Cooling Kit
2. MODEL: 480B
3. EFFECTIVITY: Serial numbers 5087 through 5113
4. BACKGROUND:

Enstrom has certified modifications to the 480B that increase the maximum ambient temperature operating limit from 106°F (41°C) to 122°F (50°C). The majority of these modifications are incorporated into production aircraft starting with serial number 5114. The remainder of these modifications are offered as optional equipment that can be easily installed, allowing operation of the aircraft at the increased maximum ambient temperature limit.

An Engine Cooling Kit, P/N 4230031-1, is available for installation on aircraft serial numbers listed in paragraph 3 to allow operation at the increased maximum ambient temperature limit.

5. COMPLIANCE:

At owner/operator option, install the Engine Cooling Kit, P/N 4230031-1, to increase the maximum ambient temperature operating limit to 122°F (50°C).

- 5.1. PARTS:

Description	Part Number	Quantity
Engine Cooling Kit	4230031-1	1 Each
