SERVICE INFORMATION LETTER

SERVICE INFORMATION LETTER NO. 0047

Date: March 11, 1976
Subject: Title Changes for Enstrom Service Communications
Model: All Enstrom Model Aircraft
Effectivity: Not Applicable

This is to notify all recipients of Enstrom Service Notes and Letters that a change in titles of these publications has been initiated to more explicitly identify the true purpose of the communication.

The former Enstrom "Service Letters" will now be titled "Service Information Letters." The intent is to communicate useful information such as the availability of improved parts, in-field service experience, improved maintenance procedures, recommendations, or other general service clarification information.

The former Enstrom "Service Notes" will now be titled "Service Directive Bulletins. The intent is to communicate mandatory changes, inspections, or other actions, compliance of which may be a safety-of-flight consideration.
